## Listening Comprehension

### Part A

**DIRECTIONS:** In Part A you will hear short conversations between two speakers. At the end of each conversation, a third speaker will ask a question about what the first two speakers said. Each conversation and each question will be spoken only one time. Therefore, you must listen carefully to understand what each speaker says. After you hear a conversation and the question, read the four choices and select the one that is the best answer to the question the speaker asked. Then, on your answer sheet, find the number of the question and blacken the space that corresponds to the letter for the answer you have chosen. Blacken the space completely so that the letter inside the space does not show.

Listen to the following example.

On the recording, you hear:

(Man) Does the car need to be filled?

(Woman) Mary stopped at the gas station on her way home.

(Narrator) What does the woman mean?

In your test book, you will read:

(A) Mary bought some food.

(B) Mary had car trouble.

(C) Mary went shopping.

(D) Mary bought some gas.

From the conversation you learn that Mary stopped at the gas station on her way home. The best answer to the question "Does the car need to be filled?" is (D), "Mary bought some gas." Therefore, the correct answer is (D).

Now let us begin Part A with question number 1.

**DIRECTIONS:** In this part of the test, you will hear longer conversations. After each conversation, you will hear several questions. The conversations and questions will not be repeated. After you hear a question, read the four possible answers in your test book and select the best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen. Remember, you are not allowed to take notes or write in your test book.

Listen to the following example:

You will hear:

You will read:

- (A) He has changed jobs.
- (B) He has two children.
- (C) He has two jobs.
- (D) He is looking for a job.

From the conversation you learn that Tom has taken an additional job. The best answer to the question "Why is Tom tired?" is (C), "He has two jobs." Therefore the correct answer is (C).

Woman: Excuse me, do you know anything about glue? The handle on my purse ripped this morning, and I am not sure what to use.

Man: It depends on the material. Ordinary white glue works well for paper and light wood, but not for leather or plastic.

Woman: I was thinking about rubber cement. Would that hold it?

Man: Rubber cement is flexible, but it is not strong enough for something that gets pulled a lot, like a purse handle. For that, epoxy would probably be better.

Woman: Epoxy? I thought that was only for heavy repairs.

Man: Not always. I used epoxy last month when my daughter's shoe started coming apart, and it held surprisingly well.

Air transportation is used not only for passengers but also for cargo. In large airports, cargo handling is a separate and highly organized operation. Air cargo usually includes two major categories: mail and freight. Mail is often processed through postal facilities located in or near airports, while freight is routed to separate cargo terminals.

Once freight reaches the airport, it is weighed, labeled, sorted, and sent to the correct terminal area. Some freight travels on passenger aircraft, but other freight is shipped according to special cargo schedules. This allows airlines to move goods quickly even when passenger flights are not available or when the cargo requires special handling.

Cargo workers also coordinate with customs officers, postal workers, and airline staff to make sure shipments are loaded on the correct aircraft. Because timing is important, much of this work takes place in airport facilities designed specifically for cargo movement.

Today we will look at bananas as an agricultural crop. Bananas are not manufactured goods, and they are not related to passenger travel or automobiles. They belong to the category of crops, and they are one of the most widely consumed fruits in the world.

There are thousands of varieties of bananas, though only a few are commonly sold in stores.

Banana plants produce flowers that may be green, white, or cream-colored. The fruit itself can be described in several ways depending on the variety. Some bananas are soft when ripe, while others remain firm and are often cooked before being eaten.

The most familiar type is the sweet banana, which is usually eaten fresh. Other kinds may be cooked or used in different food products, but dessert bananas are generally eaten as fruit.

Banana plants require warmth, moisture, and strong root systems. Their extensive roots help them take in water and nutrients from the soil.

Commercial banana production is especially important in tropical regions, including parts of South America. From there, bananas are exported to markets around the world.

## Reading Comprehension

**Time 55 minutes**

**DIRECTIONS:** In this section you will read several passages. Each passage is followed by a series of questions. For questions 1-50, you need to select the best answer, (A), (B), (C), or (D), to each question. Then, on your answer sheet, find the number of the question and fill in the space that contains the letter of the answer you have selected. Fill in the space completely. Answer all questions following a passage on the basis of what is stated or implied in the passage.

Read the following passage:

A tomahawk is a small ax used as a tool and a weapon by the North American Indian tribes. An average tomahawk was not very long and did not weigh a great deal. Originally, the head of the tomahawk was made of a shaped stone or an animal bone and was mounted on a wooden handle. After the arrival of the European settlers, the Indians began to use tomahawks with iron heads. Indian males and females of all ages used tomahawks to chop and cut wood, pound stakes into the ground to put up wigwams, and do many other chores. Indian warriors relied on tomahawks as weapons and even threw them at their enemies. Some types of tomahawks were used in religious ceremonies. Contemporary American idioms reflect this aspect of American heritage.

### EXAMPLE I

Early tomahawk heads were made of

- (A) stone or bone
- (B) wood or sticks
- (C) European iron
- (D) religious weapons

According to the passage, early tomahawk heads were made of stone or bone. Therefore, the correct answer is (A).

### EXAMPLE II

How has the Indian use of tomahawks affected American daily life today?

- (A) Tomahawks are still used as weapons.
- (B) Tomahawks are used as tools for certain jobs.
- (C) Contemporary language refers to tomahawks.
- (D) Indian tribes cherish tomahawks as heirlooms.

The passage states, "Contemporary American idioms reflect this aspect of American heritage." The correct answer is (C). After you read the directions, begin work on the questions.

## Questions 1-12

Charles Lindbergh was born in Detroit, Michigan, in 1902 but was raised on a farm in Minnesota, where his father was elected to the U.S. Congress in 1907. From then on, he spent his boyhood alternately in Washington, D.C., Detroit, and Little Falls, Minnesota. Line Because Lindbergh exhibited exceptional mechanical talent, in 1921 he was admitted to the University of Wisconsin to study engineering. However, the young man was seeking more challenging endeavors, and two years later he became a stunt pilot who performed feats at county fairs and public assemblies. This unusual and dangerous undertaking paid off handsomely in the sense that it allowed him to gain a diverse and well-rounded experience in aeronautics. He particularly delighted in what he called "wing-walking" and parachute jumping.

After a year of training as a military cadet, Lindbergh completed his program at the Brooks and Kelly airfields at the top of his class and earned the rank of captain. Robertson Aircraft Corporation of St. Louis, Missouri, offered him employment as a mail pilot to run the routes between St. Louis and Chicago, and Lindbergh retained his position with the company until 1927. During this period, he set out to win the Raymond B. Orteig prize of \$25,000 to be awarded to the first pilot to fly nonstop from New York to Paris. This ambition would irreversibly change his life and accord him a prominent place in the history of Aviation.

Embarking on the greatest adventure of his time, Lindbergh left Roosevelt Field at 7:52 A.M. on May 20, 1927, and landed at Le Bourget Field at 5:24 P.M. the next day. Fearing that he would be unknown when he arrived, Lindbergh carried letters of introduction to dignitaries in Paris, but when his plane came to a stop, he was overwhelmed by tremendous welcoming crowds. He was decorated in France, Great Britain, and Belgium, and President Coolidge sent a specially designated cruiser, the *Memphis*, to bring him back. His accomplishments in aeronautics brought him more medals and awards than had ever been received by any other person in private life.

1. Which of the following is the best title for the passage?

- (A) A Benchmark Adventure in Aeronautics
- (B) The Early Life of Charles Lindbergh
- (C) Groundbreaking Events in Aviation
- (D) Charles Lindbergh's Explorations

Evidence quote: "overwhelmed by tremendous welcoming crowds... decorated in France, Great Britain, and Belgium"

Jawaban (C) karena paragraf berikutnya kemungkinan membahas dampak celebrity instan pada Lindbergh.

Needs manual review: true

**Questions 13-21**

Lithography is a planographic process that performs a significant function in illustration and offset printing. It is based on the principle that water does not combine with grease-based substances, preventing them from smearing an outline on an unpolished surface. The line contour does not need to be engraved into the plate, as in the case of gravure printing, or raised above the surface, as in the letterpress process. These laborious operations ensure that only the design to be printed catches and retains the ink transferred to the paper.

In lithography, the artist draws on a leveled, grainy plate made of limestone, zinc, aluminum, or specially treated paper with a grease pencil, a crayon, or tusche, a greasy liquid. After sketching the contour on the plate, the artist coats both the drawn and the undrawn portions of the plate with an inking roller dipped in a solution of nitric acid and gum arabic. The gum arabic envelops the greased surfaces and prevents ink from penetrating into the greaseless areas. The artist dampens the surface with water, which is repelled by the greased areas. Then the surface is covered with thick, oily ink and pressed onto paper. The sheet picks up the ink from the design while the damp stone around the pattern keeps the ink from spreading.

In offset lithography, shiny sheets of zinc and aluminum are used instead of the heavy, hard-to-handle stone plates. The metal plates are scoured by emery dust and marble chips to give them a grained finish. The subjects to be printed are laid down photographically, and rotary presses automatically moisten, ink, and print hundreds of impressions per hour.

**13.** What does the passage mainly discuss?

- (A) Commercial printing of mass-produced lithographs
- (B) Steps in a technique for making impressions
- (C) The equipment necessary for offset lithographs
- (D) The evolution of lithograph printing to rotary presses

**Review**

Answer: B

Confidence: high

Evidence refs: lines 1-15

Evidence quote: "Lithography is a planographic process... the artist draws... the surface is covered with thick, oily ink and pressed onto paper"

Jawaban (B) karena passage menjelaskan langkah-langkah teknik lithography, jadi fokusnya proses pembuatan impresi.

**14.** According to the passage, lithographic printing makes use of the fact that

- (A) artists can draw on flat, greaseless surfaces
- (B) oily substances do not mix with water
- (C) gravure etching is work- and time-consuming
- (D) limestone, zinc, and aluminum can be used as planes

**Review**

Answer: B

Confidence: high

Evidence refs: lines 2-3

Evidence quote: "water does not combine with grease-based substances"

Jawaban (B) karena prinsip utama lithography: minyak/grease tidak bercampur dengan air.

**15.** In line 4, the word "contour" is closest in meaning to

- (A) contrast
- (B) content
- (C) outline
- (D) edge

**Review**

Answer: C

- (A) elevated
- (B) low
- (C) flawed
- (D) flattened

**Review**

Answer: D

Confidence: high

Evidence refs: line 7

Evidence quote: "leveled, grainy plate"

Jawaban (D) karena leveled berarti diratakan/flattened.

**17.** In line 11, the word "envelops" is closest in meaning to

- (A) sends
- (B) soils
- (C) coats
- (D) coils

**Review**

Answer: C

Confidence: high

Evidence refs: line 11

Evidence quote: "The gum arabic envelops the greased surfaces"

Jawaban (C) karena envelops berarti coats.

**18.** It can be inferred from the passage that in making lithographic prints, the paper

- (A) absorbs the ink from the printing plate
- (B) spreads the ink on the greased areas
- (C) shrinks away from the printing stone
- (D) keeps the oil from sliding off

**Review**

Answer: A

Confidence: medium

Evidence refs: lines 13-14

Evidence quote: "pressed onto paper. The sheet picks up the ink from the design"

Jawaban (A) karena kertas mengambil ink dari desain pada plate, jadi absorbs/picks up.

Needs manual review: true

**19.** Where in the passage does the author point out the advantages of lithography over other types of printing?

- (A) Lines 1-2
- (B) Lines 3-5
- (C) Lines 7-8
- (D) Lines 16-18

**Review**

Answer: B

Confidence: medium

Evidence refs: lines 2-5

Evidence quote: "contour does not need to be engraved... or raised above the surface"

Jawaban (B) karena keunggulan dibanding gravure/letterpress disebut di baris 3-5.

Needs manual review: true

**20.** A paragraph following the passage would most probably discuss

- (A) photosynthesis in commercial lithographs
- (B) the offset printing of billboard advertisements
- (C) technological advancements in offset printing
- (D) types of unique lithographs. printed in rare books

**Review**

Answer: C

Confidence: medium

Evidence refs: lines 16-19

Evidence quote: "offset lithography... rotary presses automatically moisten, ink, and print"

Jawaban (C) karena setelah offset lithography dibahas, paragraf berikutnya kemungkinan perkembangan teknologi offset.

Needs manual review: true

**21.** In line 19, the word "impressions" is closest in meaning to

- (A) originals
- (B) reproductions
- (C) photographs
- (D) plates

**Review**

Answer: B

Confidence: high

Evidence refs: line 19

Evidence quote: "print hundreds of impressions per hour"

Jawaban (B) karena impressions di sini berarti hasil cetak/reproductions.

**Questions 22-32**

Although a few protozoans are multicellular, the simplest are unicellular organisms, Such as amoebas, bacteria, sarcodina, ciliates, flagellates, and sporozoans, which can be amorphous in shape and smaller than .001 inch. Cytoplasm fills the cell membrane that encloses it and functions as a barrier between cells. The membrane serves as the outer tissue, and any compound that may destroy the cell has to penetrate it to reach the cytoplasm. Some types of organisms are termed colonial because they represent loosely assembled groups of structurally similar and unifunctional cells. Colonial organisms maintain a symbiotic relationship within their particular environments.

Unlike colonial organisms, almost all species of animals and plants are multicellular and include various types of specialized or somatic cells, each with its own nucleus, genetic code, and RNA. The overall size of a multicellular body is contingent on the total number of cells that comprise it, not the size of individual cells. The simplest multicellular animals are hydras, sponges, and jellyfish, which have well-defined tissues, a cellular nucleus, and an element of cell functions. Sponges have a few specialized cells but largely resemble colonial organisms that can readily form a new individual group. If the cells of a sponge are separated, they rejoin and continue as a newly formed colonial organism.

**22.** How many cells do the simplest organisms contain?

- (A) One
- (B) One hundred
- (C) Many
- (D) An unknown number

**Review**

Answer: A

Confidence: high

Evidence refs: line 1

Evidence quote: "the simplest are unicellular organisms"

Jawaban (A) karena unicellular berarti satu sel.

**23.** In line 4, the phrase "outer tissue" is closest in meaning to

- (A) outside force
- (B) outlying area

- (C) shell
- (D) cell

**Review**

Answer: C

Confidence: high

Evidence refs: line 4

Evidence quote: "serves as the outer tissue"

Jawaban (C) karena outer tissue paling dekat artinya shell.

**24.** In line 5, the word "it" refers to

- (A) the cell
- (B) any compound
- (C) the membrane
- (D) the cytoplasm

**Review**

Answer: C

Confidence: high

Evidence refs: lines 4-5

Evidence quote: "the cell membrane... has to penetrate it to reach the cytoplasm"

Jawaban (C) karena it merujuk ke membrane yang harus ditembus untuk mencapai cytoplasm.

**25.** It can be inferred from the passage that a cell serves as

- (A) a partition of organism functions
- (B) the smallest colonial group
- (C) the smallest genetic unit
- (D) a flagellate reproductive organ

**Review**

Answer: C

Confidence: medium

Evidence refs: line 10

Evidence quote: "each with its own nucleus, genetic code, and RNA"

Jawaban (C) karena passage menyebut bahwa setiap sel memiliki nucleus, genetic code, dan RNA, sehingga opsi ini paling cocok. Namun, klaimnya tetap perlu dibatasi pada konteks passage.

Needs manual review: true

**26.** In line 6, the word "loosely" is closest in meaning to

- (A) lively
- (B) naturally
- (C) freely
- (D) feebly

**Review**

Answer: C

Confidence: high

Evidence refs: line 6

Evidence quote: "loosely assembled groups"  
Jawaban (C) karena loosely berarti freely/longgar.

**27.** In line 8, the word "symbiotic" is closest in meaning to

- (A) mutually dependent
- (B) mutually exclusive
- (C) mutually hostile
- (D) mutually resistant

**Review**

Answer: A

Confidence: high

Evidence refs: line 8

Evidence quote: "symbiotic relationship"

Jawaban (A) karena symbiotic berarti mutually dependent.

**28.** The author of the passage implies that large animals and plants have

- (A) larger cell sizes than amoebas and protozoans
- (B) larger quantities of protoplasm than smaller lifeforms
- (C) stronger cellular membranes than flagellates
- (D) a greater number of cells than smaller lifeforms

**Review**

Answer: D

Confidence: high

Evidence refs: lines 11-12

Evidence quote: "overall size... contingent on the total number of cells"

Jawaban (D) karena ukuran tubuh tergantung jumlah sel, jadi organisme besar punya lebih banyak sel.

**29.** In line 10, the word "each" refers to

- (A) animals
- (B) species
- (C) cells
- (D) plants

**Review**

Answer: C

Confidence: high

Evidence refs: line 10

Evidence quote: "each with its own nucleus"

Jawaban (C) karena each merujuk ke cells yang specialized.

**30.** According to the passage, sponges and jellyfish are

- (A) the simplest one-cell organisms
- (B) the simplest multicellular animals
- (C) tissues and cellular nuclei

(D) cellular and colonial organisms

**Review**

Answer: B

Confidence: high

Evidence refs: lines 12-13

Evidence quote: "The simplest multicellular animals are hydras, sponges, and jellyfish"

Jawaban (B) karena sponges dan jellyfish disebut sebagai multicellular paling sederhana.

**31.** The author mentions all of the following EXCEPT:

(A) procreative mechanisms

(B) colonial organisms

(C) cell contents

(D) specialized cells

**Review**

Answer: A

Confidence: high

Evidence refs: lines 1-16

Evidence quote: "mentions cell membrane, cytoplasm, colonial organisms, specialized cells"

Jawaban (A) karena tidak ada pembahasan mekanisme reproduksi.

**32.** This passage would most likely be found in a textbook on which of the following subjects?

(A) Genetics

(B) Anatomy

(C) Biology

(D) Biochemistry

**Review**

Answer: C

Confidence: high

Evidence refs: lines 1-16

Evidence quote: "protozoans, cells, membranes, multicellular organisms"

Jawaban (C) karena topiknya biologi umum.

## Questions 33-42

When parchment, which was extraordinarily costly, was replaced by papyrus, it became feasible to establish libraries. At the onset, they began as archives for record keeping and document storage. According to second-hand reports, the most renowned papyrus library Line was the Alexandrian, founded by Alexander the Great around 330 B.C. in Alexandria, Egypt. His successors as rulers of Egypt, Ptolemy I and Ptolemy II, expanded the library into the greatest collection of scrolls in the ancient world. To acquire this collection, the rulers borrowed scrolls and manuscripts from libraries in Athens, Rome, and other localities and ordered them duplicated. At times, the library employed more than 100 scribes and illustrators. Some historians claim that the Alexandrian library purchased entire lesser libraries to contribute to and enhance the quality of its possessions.

The library owned a copy of every contemporary scroll known to the library's administrators and contained more than 400,000 items, all of which were classified and organized. The contents of the papyrus rolls were edited, and a bibliography of Greek literature was com-

piled and cross-referenced, reflecting the emergence and dissemination of a highly developed Greek culture. Over time, a succession of leading scholars directed this library, which was acclaimed for the scholarly undertakings it supported as well as for the size of its collection. At one time, 72 scholars were engaged to translate religious testaments, historical annals, and mercantile accounts. Although the library flourished, it was accessible to only a minority of the population because in ancient times the vast majority of urban dwellers were illiterate. Because papyrus was extremely perishable, not a trace of the Alexandrian library remains today, and archaeologists have several hypotheses as to what became of it.

**33.** What does the passage mainly discuss?

- (A) The use of papyrus in ancient scroll collections
- (B) The origin and history of a library
- (C) The cultural initiatives of Alexander the Great
- (D) The expansion of libraries in ancient times

**Review**

Answer: B

Confidence: medium

Evidence refs: lines 1-10

Evidence quote: "the Alexandrian... founded by Alexander the Great... expanded the library"

Jawaban (B) karena pembahasan utama adalah asal-usul dan sejarah perpustakaan Alexandria.

Needs manual review: true

**34.** In line 2, the word "feasible" is closest in meaning to

- (A) practicable
- (B) easy
- (C) prestigious
- (D) ebullient

**Review**

Answer: A

Confidence: high

Evidence refs: line 2

Evidence quote: "it became feasible to establish libraries"

Jawaban (A) karena feasible berarti practicable.

**35.** It can be inferred from the passage that reports of the Alexandrian library

- (A) were highly exaggerated
- (B) could not be verified
- (C) were secondary in importance
- (D) could not be made known

**Review**

Answer: B

Confidence: medium

Evidence refs: lines 3-4

Evidence quote: "According to second-hand reports"

Jawaban (B) karena laporan tersebut bersifat second-hand, informasi tentang library tidak be-

rasal dari bukti langsung sehingga sulit diverifikasi sepenuhnya.

Needs manual review: true

**36.** The author of the passage implies that the rulers of Egypt

- (A) oversaw the expansion of the library directly
- (B) devoted funds and other resources to the library collections
- (C) sought to make the library self-contained
- (D) marshaled worldwide support for the library collections

**Review**

Answer: B

Confidence: medium

Evidence refs: lines 6-9

Evidence quote: "borrowed scrolls... ordered them duplicated... employed more than 100 scribes"

Jawaban (B) karena langkah-langkah pengadaan menunjukkan mereka mengalokasikan sumber daya.

Needs manual review: true

**37.** According to the passage, the main goal of the library in Alexandria was

- (A) collecting scrolls loaned by other libraries
- (B) gradually replacing papyrus with parchment
- (C) translating scrolls in ancient Egypt and Greece
- (D) accumulating translations and originals of texts

**Review**

Answer: D

Confidence: medium

Evidence refs: lines 9-12

Evidence quote: "purchased entire lesser libraries... owned a copy of every contemporary scroll"

Jawaban (D) karena tujuan utama: mengumpulkan semua scroll dan memperkaya koleksi.

Needs manual review: true

**38.** In the second paragraph, the author implies that

- (A) parchment was more durable than books
- (B) libraries were necessary to conduct research
- (C) the library collection cannot be examined
- (D) the library was historically relevant

**Review**

Answer: C

Confidence: medium

Evidence refs: lines 20-21

Evidence quote: "not a trace of the Alexandrian library remains today"

Jawaban (C) karena implikasinya, koleksi tidak dapat diperiksa lagi.

Needs manual review: true

**39.** With which of the following statements about Greek literature is the author of the passage most likely to agree?

- (A) It was nurtured in libraries in Athens and Rome.
- (B) It was integral to Greek culture.
- (C) It was compiled and cross-referenced in the library.
- (D) It was beginning to emerge when the library was expanded.

**Review**

Answer: C

Confidence: high

Evidence refs: lines 13-14

Evidence quote: "a bibliography of Greek literature was compiled and cross-referenced"

Jawaban (C) karena pernyataan ini eksplisit di passage, jadi pilihan C paling tepat.

**40.** In line 15, the word "succession" is closest in meaning to

- (A) series
- (B) success
- (C) sundry
- (D) substitution

**Review**

Answer: A

Confidence: high

Evidence refs: line 15

Evidence quote: "a succession of leading scholars"

Jawaban (A) karena succession berarti series.

**41.** It can be inferred from the passage that in ancient times

- (A) books and scrolls were updated regularly
- (B) libraries benefited upper social classes
- (C) maintaining collections was fruitless
- (D) the population should have been educated

**Review**

Answer: B

Confidence: high

Evidence refs: lines 18-19

Evidence quote: "accessible to only a minority of the population"

Jawaban (B) karena akses terbatas menunjukkan manfaat terutama untuk kelas atas/elite.

**42.** In the last sentence, the phrase "not a trace" most probably means

- (A) absolutely no one
- (B) absolutely nothing
- (C) not a penny
- (D) not a soul

**Review**

Answer: B

Confidence: high

Evidence refs: lines 20-21

Evidence quote: "not a trace of the Alexandrian library remains"

Jawaban (B) karena not a trace berarti absolutely nothing tersisa.

## Questions 43-50

According to data obtained from radioactive dating, the oldest rocks found on earth are approximately 500 million to 4 billion years old. Similar ages have been determined for meteorites and the rocks gathered from the moon's surface. Different methods of arriving at the Line earth's age generate very similar results. Modern theories about the formation, development, and eventual burning out of stars suggest that the sun is about 5 billion years old. Experts contend that the earth and the sun were formed at almost the same time from a cloud of dust and gas resulting from a cosmic explosion. The present rate of expansion of the galaxies can be extrapolated to suggest that, if the universe began with a "big bang" about 15 billion years ago, an age of 5 billion years for both the earth and the sun can be considered plausible. Long before radioactive dating was implemented, mythology and oral narratives alluded to a conjecture that the earth was nearly 6,000 years old. The methods of computation based on the analysis of genealogical trees in scant archaeological findings provide evidence that can be difficult to date accurately. Today, radioactive dating of particles and whole objects has rejected this figure of the earth's age as unreliable.

**43.** What does the passage mainly discuss?

- (A) Dating techniques in research
- (B) Modern theories and radioactive dating
- (C) Research and narratives about the earth's formation
- (D) Establishing the earth's age

### Review

Answer: D

Confidence: high

Evidence refs: lines 1-14

Evidence quote: "oldest rocks... earth's age... radioactive dating... rejected this figure"

Jawaban (D) karena seluruh passage fokus pada penentuan usia bumi.

**44.** It can be inferred from the passage that radioactive dating is important for estimating the age of

- (A) all known meteors
- (B) all existing planets
- (C) the earth
- (D) the trees

### Review

Answer: C

Confidence: medium

Evidence refs: lines 1-2

Evidence quote: "oldest rocks found on earth... radioactive dating"

Jawaban (C) karena radioactive dating dipakai untuk menentukan umur bumi.

Needs manual review: true

**45.** In line 5, the word "eventual" is closest in meaning to

- (A) ultimate
- (B) eventful
- (C) utter
- (D) enduring

**Review**

Answer: A

Confidence: high

Evidence refs: line 5

Evidence quote: "eventual burning out of stars"

Jawaban (A) karena eventual paling dekat dengan ultimate.

**46.** According to the passage, the moon is

- (A) older than the earth and the sun
- (B) newer than the earth and the sun
- (C) approximately the same age as the earth and the sun
- (D) approximately the same density as the earth and sun

**Review**

Answer: C

Confidence: high

Evidence refs: lines 2-6

Evidence quote: "Similar ages... the sun is about 5 billion years old... formed at almost the same time"

Jawaban (C) karena moon rocks seumurannya dan bumi-matahari terbentuk hampir bersamaan.

**47.** The author of the passage implies that

- (A) the earth and the sun are of similar origin
- (B) the earth and the sun can be explosive
- (C) meteorites and the moon have been analyzed
- (D) the galaxies are expanding at a substantial rate

**Review**

Answer: A

Confidence: high

Evidence refs: lines 6-7

Evidence quote: "earth and the sun were formed at almost the same time from a cloud of dust and gas"

Jawaban (A) karena implikasi: asal-usul bumi dan matahari serupa.

**48.** With which of the following statements would the author be most likely to agree?

- (A) The moon and the sun are 15 billion years old.
- (B) The moon can be viewed as a meteorite.
- (C) The formation of galaxies is an on going process.
- (D) The earth can be dated as far back as 6,000 years.

**Review**

Answer: C

Confidence: medium

Evidence refs: lines 8-9

Evidence quote: "present rate of expansion of the galaxies"

Jawaban (C) karena passage menyebut 'the present rate of expansion of the galaxies', sehingga opsi ini yang paling mendekati. Namun, redaksi 'formation of galaxies' memang kurang presisi dibanding 'expansion of galaxies'.

Needs manual review: true

**49.** In line 9, the word "plausible" is closest in meaning to

(A) reasonable

(B) rational

(C) relative

(D) relational

**Review**

Answer: A

Confidence: high

Evidence refs: line 9

Evidence quote: "can be considered plausible"

Jawaban (A) karena plausible berarti reasonable.

**50.** What conclusion does the author of the passage make?

(A) Radioactive dating is refuted by researchers.

(B) Radioactive dating is more accurate than other methods.

(C) The earth is a part of a galaxy that includes many moons.

(D) The sun's radioactivity is scant and can be negligible.

**Review**

Answer: B

Confidence: medium

Evidence refs: lines 13-14

Evidence quote: "radioactive dating... has rejected this figure... as unreliable"

Jawaban (B) karena penulis menilai radioactive dating lebih akurat dibanding metode lama.

Needs manual review: true
